#### December Twenty-Second-

To-day Plymouth Rock is the "blarney-stone" of New England, and New Englanders, the world over. It is the anniversary of the landing of the Pilgrim Fathers and Mothers, and the heart of every true Son and Daughter turns with reverence and affection to the treasured memories of Forefathers' Day. In most of the large cities and towns of the land-for Yankees abound everywhere—the anniversary will be suitably commemorated. Thus should it ever be. In our own Forest City of New Connecticut, good old mother Connecticut and her sisters Massachusetts, Vermont, Rhode Island, New Hampshire and Maine, will be duly represented, remembered and honored at the WED-DELL this evening. The arrangements for a good time are ample, and all New Englanders and the friends of New England, are bidden to the Festival.

How wonderful the changes wrought in the brief measure of Two Hundred and Thirty-Eight years!

### Virginia and the Presidency in 1860.

Virginia claims to be not only the mother of Presidents but the maker of Democratic candidates, and the Richmond Enquirer, so long the mouth-piece of the party, takes time by the forelock and devotes a leader on the 15th inst. to "the nomination at Charleston." It contradiets the announcement made in some quarters that "Senator Hunter is now the favorite of the Administration for the Presidential succession, and insists that as Senator from Virginia, he is bound to take issue with the President on a number of the prominent recommendations contained in the last annual message. The Enquirer then tomahawks Senator Hunter for President with cruel blows thus .- "Mr. Hunter's own friends do not believe that he can secure the vote of Virginia in the Charleston Convention or that the vote of Virginia, if secured for him would avail to render him the Presidential can could be more distasteful to the great body of the Anti-Lecompton Democracy; and even among the Lecompton Democracy, a large number are unwilling to select as their candidate the chief promoter of the English Compro-

In regard to the Presidential prospects of Senator Douglas the Enquirer says:

Senator Douglas' nomination depends upor one contingency. If it shall be determined to give the nomination to the North, which has al-ready received the three last Presidential nomi-nations from the party, and furnished the two last Democratic Presidents, in such case, every ceptive paths of squatter sovereignty.

for Mr. Wise as the Charleston nominee. It deprecates the Hunter movement as an attempt to divide the vote of the State in convention, which, Hunter out of the way, the Enquirer asserts would be a unit for Gov. Wise, at Charles, ton. There is evidently a "good time coming among the Democracy of the Old Dominion, for the Enquirer expresses apprehension of an "attempt to pack the Legislature, at the next spring should never exist in the "North West Termshould never exist in the "North West for Mr. Wise as the Charleston nominee. It tempt to pack the Legislature, at the next spring elections, in order that a legislative cancus, of tion of the people in Convention, by an endorsement of Mr. Hunter as the choice of the Democratic legislative delegation, for the presidential nomination." The Enquirer, as the champion of Gov. Wise, boldly throws down the gauntlet to the Hunter intriguers, and declares "there are no longer any side issues to hold our arm and plead forbearance."

Notwithstanding the old Enquirer so summarily despatched Mr. Hunter, it is apparent that " sludows still affright the soul of Richard."

Steamer Line Between Cleveland and Buffalo Our citizens, as well as the traveling public generally, will be pleased to learn that the splendid steamers City of Buffalo and Western Metropolis are to form a fine between Cleveland and Buffalo the coming season, leaving each city at 8 o'clock in the evening.
